I am currently a student at NSU and this is one of the books that I needed for a required course that I am taking online as a degree requirement. When I went to the campus bookstore they were going to charge me an arm and a leg for this book. The option to get it off .com made it more convenient for me, and more affordable. I was able to order this book and get it well before my classes started. The book itself is not very big and is easy to carry. If I decided to put it in my laptop bag it would fit in with my laptop without making it too bulky or too heavy to carry. I like that it doesn't have 20+ chapters, it is straight forward and to the point. It's an easy read, and keeping up with my assignments is a breeze. I highly recommend getting a deal on textbooks by buying and or renting from.
