Customer Reviews

I bought this book for a once a week Spanish class that I'm taking. The class is kind of upper/beginning level and the text works rather well for what's being taught in class--a good amount of written grammar and vocabulary exercises that provide preparation for the oral grilling that we get in class. The material is well organized and each chapter introduces a lot of new material, with a strong focus on grammar. The explanations of verb conjugations, variations etc. are clear and the book could be used in a self-learning situation. Overall, not a bad textual foundation for studying Spanish.

This is a very easy to use and comprehensive Spanish language text book. Includes good review questions and concise charts for memorizing verb conjugations.

I have used this textbook before as a teacher at another educational institution and i found its contents to be correct and cocise and its exercises innovative, hence this rating.

VERY HAPPY!! This book is in almost perfect condition, no writing that I could find, AND, it arrived on the 3rd business day after ordering. Very pleased, thank you!!

Good book. You definitely would need a little knowledge of Spanish so not for an absolute beginner otherwise great book
