Danielle has done it again. I love the characters of Edenville. Stars in a Bottle focuses on Frankie the granddaughter of Betty and the daughter of Jules. I enjoyed seeing the characters that we have grown to enjoy make appearances in the book, but the main focus is on Frankie learning who she is

and how she wants to be treated. Frankie goes to Arizona to investigate a story her best friend tells her about. She is supposed to do the investigation with her "boyfriend" Maxwell. Things do not go as plan and Frankie has to examine herself and what she wants and how she wants to be treated. I really would enjoy seeing more about Frankie and growing up in Edenville and how that affects her outlook. I highly recommend reading this book :)

Pure and simple. I have fallen in love with all of these characters. My childhood was rough, as of many. These novels have given me the joy of understanding what a real family is like. Betty is everyones Mom and grandmother. Now I can not wait to see how each character evolves. I hope to be reading about Frankie and Tao's wedding in the future. Ms. Stewart, you have created a wonderful family for me. I have read every one of your novels. You must be such a sweet person with so much love in your heart. Thank you !

Whenever I think Danielle Stewart CAN'T possibly deliver a story BETTER than a previous one, she absolutely does! This story is absolutely incredible. I love Frankie, I love the journey she takes, I love ALL the characters. I try SO hard not to give anything away in my reviews and it is HARD! This story is so beautifully told. There were many scenes in this story that so caught me heart but there is one particular scene, if I too close my eyes, I can picture being there, it's THAT vivid to me. I can picture the place as well as what both Frankie and Tao describe. I know this is a work of fiction but the way Danielle tells a story, it's REAL. What folks in the story go through is REAL. She opens my eyes to cultures I'm not familiar with and gives me insight to their reality. Nothing in this story seems fake or forced...it flows beautifully and flawlessly. As a parent, I could relate to not only Frankie, but to Frankie's parents, Michael and Jules and the way events transpired. I wish I had the family that Frankie has - but I do in some ways because ALL the characters in Danielle's books are family to me. Each and every story brings me to folks I've gotten to know SO SO well over the past few years, I feel like I am part of their family. They certainly have MY heart completely. BRAVO Danielle on delivering an OUTSTANDING read. Keep them coming because you ALWAYS amaze me!! VERY HIGHLY recommend this story and believe it can be read as a standalone. Trust me though, you'll then want to read ALL the stories after reading this one!

Danielle continues to amaze me with her knowledge she embeds in her books. In this book, you will learn to love American Indians and understand them a little better as she weaves her knowledge of living on a reservation into the wonderful characters she has created and living in Edenville, more

especially Frankie. Your heart strings will be tugged on as you are able to feel as though you are walking a mile in the mocassins of Tao. This book is well worth reading as Danielle continues to write wonderful stories and create characters and events that pull us into the story and become friends with all the characters. You will not want to pass this book up. A great read!

I love when I get to take a trip back to Edenville! Danielle Stewart has a way of pulling her readers straight into the book from the very beginning. I loved reading about Frankie as an adult and I can't wait to read more about my favorite characters!! Danielle is such a good storyteller and I hate when the story ends because I always want more!! So thank you, Danille, for another awesome book. I can't wait until my next trip to Edenville!

Another fantastic read. Love Edenville series Frankie is a focused young lady who is a go getter. As with most young adults you want to grow up fast and think you know it all. Sometimes the best laid plans veers another course as it does for Frankie. Beautifully written story of looking at things with different points of views, being considerate and kind to each other

I loved to hear about Frankie in this book. Now a grown women trying to find her place in the world and the trying times she goes thru. I thoroughly enjoyed this book as I enjoy all of Danielle Stewarts books. She knows how to make her characters speak to you. Keep up the good work.

It is a wonderful third book in this series. A full circle for the main character. All grown up and ready to face the challenges of life and what it brings. Leaving home only to return to those who love her and support her in her choices. I would recommend this book and the series to anyone. The characters are strong, complex and easy to relate too. The storyline is steady and easy to follow, most grown ups have been there.
